

Hi, my name is Margaret,

I looked like this picture in May. I was up and about, pushing people in their wheelchairs and always helping people.

I've always liked meat the best and veggies, but not carrots.

Offer me a drink often. I really like coffee, black.

I've always taken pride in my teeth. I took very good care of them. Please help me brush them.

I understand everything that is spoken, I just can't express myself at times.

I was always involved at church. Please make sure I always get there. It's the highlight of my week.

I really enjoy watching TV. My favorite show is Law and Order.

Please don't cover me up too much, so that I'm hot.

If I am squirmy in bed, it might be that my legs aren't straight any more.

Please use the soft booty heel guards when I am in bed and the hip abductor foam. An extra pillow against my left leg works well to keep my leg straight.

Thank you. You give me awesome care.

Margaret
